Why choose RAW Africa Eco-Tours

Africa is a big continent with so much to see, but why rush? African cultures live in the moment because you never know what is going to happen tomorrow, next week or next year....so enjoy the now. At RAW Africa we agree, that's why some of our trips are a bit longer. We like to take our time, live in the moment and have the freedom to follow that lion for as long as it takes or enjoy that conversation with a Masai elder as he teaches you about his cattle. Isn't that what travel is all about, after all?

Small Groups

Our average group size is 6 to 8 people. We have amazing guides and we think everyone deserves to spend quality time benefitting from their extensive knowledge of wildlife and culture. We stay at many community-operated lodges and guest houses which are ecofriendly and can't host large groups. We keep our groups small enough to enjoy every part of our tour but big enough to enjoy a variety of travel companions.

Act for Wildlife

All of RAW Africa Eco-Tours journeys are linked to local enterprise programs so that the majority of your tour dollar directly benefits local people and wildlife. RAW Africa Eco-Tours is passionate about educating travelers on how you can support communities and wildlife directly through a simple action you can do while on tour or at home. All RAW adventurers leave Africa knowing they did something that actually made a difference.

Unique Experiences

In the same way that every zebra has a unique stripe pattern, all our RAW Africa Eco-Tours journeys are unique. We strive to show you the real soul of Africa on all our journeys. We visit wildlife areas, programs and communities that are off the beaten track and team with local guides and businesses who are excited to share the intimate connection they have with their region and its people. Your experiences will be unique, genuine, personal and unforgettable.

Supporting Local Communities

RAW Africa Eco-Tours was created out of a shared vision to secure Africa's wildlife future through responsible and ethical ecotourism. We partner with local conservation and ecotourism organizations, which means that more than 80% of your tour money directly benefits local people, local communities and local wildlife.
